Paper 2 Writing

May/June 2026**MARK SCHEME**Maximum Mark: 40

Published

This mark scheme contains the instructions and marking guidance that our examiners used to mark candidate responses for this component.

Before they start marking, examiners complete a standardisation process. They review a range of candidate responses and discuss the mark scheme in detail to agree which answers can and cannot be accepted. Examiners award marks where it is clear that candidate responses have met the requirements of the mark scheme. These requirements may vary between different components or different versions of the same component, depending on the exact requirements of the question and the candidate responses seen during the standardisation process.

Sometimes, our mark schemes may allow marks to be awarded to responses which contain elements that are factually incorrect or for content not covered by the syllabus. We do this in response to the demands of a specific question to support candidates and make sure that our assessments are fair. However, these allowances should not be used as a guide for teaching and learning.

We cannot discuss the mark scheme with schools, and we recommend that schools read the mark scheme together with the assessment material and the Principal Examiner Report for Teachers.

This document consists of **14** printed pages.

General marking principles

All examiners must apply these marking principles when marking candidate responses.

1	Examiners must award marks for each response in line with: - the specific content defined in the mark scheme - the specific skills defined in the mark scheme or in the level descriptions - the standard of response required as exemplified by the standardisation scripts.
2	Examiners must award whole marks (not half marks, or other fractions).
3	Examiners must award marks positively . This means that: - marks are not deducted for errors or omissions - marks are awarded for correct/valid answers as defined in the mark scheme and also for other valid answers which go beyond the scope of the syllabus and mark scheme referring to your team leader as appropriate - the quality of spelling, punctuation and grammar are judged only when the mark scheme indicates that these features are specifically assessed in the question. However, the meaning of all responses must be unambiguous.
4	Examiners must consistently apply the requirements of the mark scheme and any rules for what to do when candidates have not followed instructions correctly.
5	Examiners must use the full range of marks defined in the mark scheme, unless limited by the quality of the candidate responses seen.
6	Examiners must award marks according to the mark scheme and must not award marks with grade thresholds or grade descriptions in mind.

Annotations guidance for centres

Examiners use a system of annotations as a shorthand for communicating their marking decisions to one another. Examiners are trained during the standardisation process on how and when to use annotations. The purpose of annotations is to inform the standardisation and monitoring processes and guide the supervising examiners when they are checking the work of examiners within their team. The meaning of annotations and how they are used is specific to each component and is understood by all examiners who mark the component.

We publish annotations in our mark schemes to help centres understand the annotations they may see on copies of scripts. Note that there may not be a direct correlation between the number of annotations on a script and the mark awarded. Similarly, the use of an annotation may not be an indication of the quality of the response.

The annotations listed below were available to examiners marking this component in this series.

Annotations

Annotation	Meaning
	Credit for good language or content point
	Incorrect
	Omission
	Development, expansion of a point
	Grammatical, spelling or vocabulary error
	Irrelevant
	Repetition
	Meaning unclear or illegible
On page comment	Wrong question number given by candidate

Annotation	Meaning
	Used to show that blank pages have been seen and any creditworthy material has been awarded
Highlighter	Highlight
Off-page comment	Used to make a holistic comment about the script
	A section of the text to which the annotation refers

Candidates respond to two questions. All candidates answer Question 1 and choose to answer **either** Question 2 **or** Question 3. Each question is worth 20 marks.

Candidates will be awarded marks in three categories for each response:

Question 1

- Content (maximum of 8 marks): see Table A
- Linguistic range and organisation (maximum of 6 marks): see Table B
- Language accuracy (maximum of 6 marks): see Table C.

Question 2 and Question 3

- Content (maximum of 8 marks): see Table D
- Linguistic range and organisation (maximum of 6 marks): see Table E
- Language accuracy (maximum of 6 marks): see Table F.

The Writing assessment objectives are:

- **W1:** Communicate information, opinions, arguments and creative ideas clearly and effectively, with support/justification.
- **W2:** Organise ideas into coherent text by using a range of cohesive devices and paragraphing where appropriate.
- **W3:** Use text conventions and register appropriate to the given purpose and audience.
- **W4:** Use a wide range of vocabulary and grammar effectively.
- **W5:** Use vocabulary and grammar accurately.

Generic guidance on using levels-based mark schemes

- (a) Marking of work should be positive, rewarding achievement where possible, but clearly differentiating across the whole range of marks, where appropriate.

The examiner should look at the work and then make a judgement about which level statement is the best fit. In practice, work does not always match one level statement precisely so a judgement may need to be made between two or more level statements.

Once a 'best-fit' level statement has been identified, examiners should use the following guidance to decide on a specific mark:

- Where the candidate's work **convincingly** meets the level statement, award the highest mark.
- Where the candidate's work **just** meets the level statement, award the lowest mark.

- (b) Examiners are reminded that this is a language qualification aimed at assessing language proficiency at level B2 and C1 of the Common European Framework of Reference for Languages (CEFR). The descriptions in this mark scheme should be understood and applied with reference to CEFR B2 and C1 levels.

Glossary of terms used in the Writing levels-based mark schemes**TABLES A and D – Content**

- **Argumentative:** An argumentative piece of writing attempts to clearly present a strong position on a particular topic. Its purpose is to both educate and persuade the reader on a particular point of view.
- **Discursive:** A discursive piece of writing presents a balanced examination of a subject. The response should present both sides of the discussion.
- **Descriptive:** A descriptive piece of writing describes a person, place or situation, creating an image with words so that the reader can picture it in their mind.
- **Narrative:** A narrative piece of writing tells a story containing a sequence of connected events which may be real or imaginary.

TABLES B, C and E, F – Quality of Written Communication

- **Range:** the variety of words and grammatical forms a candidate uses. At higher levels, candidates will make increasing use of a greater variety of words, fixed phrases, collocations and grammatical forms.
- **Cohesive devices:** refers to more sophisticated linking words and phrases (e.g. 'moreover', 'it may appear', 'as a result'), as well as grammatical devices such as the use of reference pronouns, substitution (e.g. There are two women in the picture. The one on the right ...), ellipsis (e.g. The first car he owned was a small car, the second a family car.).
- **Simple structures:** A simple structure is, for example, a sentence that has just one independent clause (i.e. it stands alone and expresses one complete thought) and uses a basic tense.
- **Complex structures:** A complex structure is, for example, a sentence that has an independent clause (i.e. it stands alone and expresses one complete thought) and a dependent clause (i.e. one that cannot stand alone as a complete sentence because it does not express a complete thought).
- **Errors and slips:** **Errors** are systematic mistakes. **Slips** are mistakes that are non-systematic, i.e. the candidate has learned the vocabulary item or grammatical structure, but just happened to make a mistake in this instance. In a candidate's response, where most other examples of a lexical/grammatical point are accurate, a mistake on that point would most likely be a slip.
- **Impede communication:** gets in the way of meaning.
- **Simple grammar:** words, phrases, basic tenses and simple clauses.
- **Complex grammar:** longer and more complex items, e.g. noun clauses, relative and adverb clauses, subordination, passive forms, infinitives, verb patterns, modal forms and tense contrasts.
