

PRINCIPAL MODERATORS REPORT

**ENTRY PATHWAYS
HEALTHY LIVING AND FITNESS**

JANUARY 2018

ENTRY PATHWAYS
HEALTHY LIVING AND FITNESS

January 2018

It is important to note that where a centre has entered candidates for both Entry 2 and Entry 3 Level for a particular module it is a requirement that candidates at both levels are.

Most centres use the assessment criteria accurately and are able to distinguish between those candidates achieving the Entry 2 assessment criteria and those achieving the Entry 3 assessment criteria.

Most centres complete the Centre Assessment Records well but on some occasions the amount of detail does not give the moderators a clear picture of what has been undertaken for the module.

In most centres the range of activities studied for the Healthy Living and Fitness modules is extensive. This gives the candidates the opportunity to meet the assessment criteria in an activity best suited to their individual needs.

Many centres have included activities where some or part of the work has taken place off site and it is therefore impossible to show that activity on the day of moderation. In some centres the quality of the video evidence and detailed witness statements, often from outside agencies, provide a clear account of how the candidates have met the assessment criteria for the particular module. It is interesting to hear from the candidates what they achieved when participating in these activities.

Some centres have had problems when entering their candidates' names on the secure website, the main problem being that the names are recorded on the centre's site but the centre has failed to click the 'SUBMIT' button which then sends the list of names through to the WJEC site.
